EDUCATION

Northeastern University,

Master of Science in Engineering Management

September 2024 – August 2026

Boston, MA

KLE Technological University,

Bachelor of Engineering in Computer Science & Engineering

August 2018 – April 2022

Hubli, India

EXPERIENCES

Technical Product Manager Co-op | NExT Consulting

July 2025 – Dec 2025

Via Separations

Boston, MA

- Defined **Warehouse Management System** requirements and roadmap by identifying gaps in warehouse workflows, enabling rollout of a system supporting 2,000+ SKUs
- Replaced spreadsheet-based tracking with **Harbor, a centralized WMS**, driving 100% adoption across 260+ users in 6 weeks
- Led **user research with warehouse operators**, translating **pain points into 15+ requirements** across 5 core workflows
- Improved **sprint success rate from 48% to 100%** by refining backlog prioritization and enforcing Agile planning discipline
- Scoped automation for QuickBase integration, **reducing manual effort by 10–15 hours/month** in order processing

Associate Product Manager

July 2022 – Aug 2024

Dassault Systemes

Bangaluru, India

- Owned roadmap and product requirements (PRDs, feature specs) for an internal platform used by **10,000+ users**, integrating Jira and Confluence to automate project setup for the global PMO team
- Scaled a Node.js automation from POC to production by redesigning workflows with engineering, eliminating **90% of manual database work** and reducing issue resolution time by **25%**
- Strengthened platform security by translating risk findings into technical requirements for auth controls and CI/CD monitoring, eliminating high-severity incidents over a **12-month period**
- Assessed **20+ competing platforms** to identify feature gaps, inform prioritization, and guide rollout strategy through stakeholder demos and phased releases
- Converted stakeholder needs into backend product requirements for **Java-based services**, supporting **30+ tickets per sprint across bi-weekly releases** and reducing release delays through **automated testing**

Software Analyst Intern

Jan 2022 – May 2022

Dassault Systemes

Bangalore, India

- Translated **user requirements into product specs** for a React-based platform supporting 20+ vehicle models
- Analyzed **customer data and API logs to identify issues**, redesigning 50+ APIs and improving performance
- Coordinated a zero-downtime release across engineering, QA, and DevOps; earned the **'Genius Award'** for execution

TECHNICAL SKILLS

Product & Strategy: PRDs, Feature Prioritization, User Research, Experimentation, Stakeholder Management

AI & Data: RAG, LLM Integrations, Prompt Engineering, Model Evaluation, Data Analysis

Technical: SQL, Python, Java, REST APIs, Docker, React, System Design, AWS, Microservices Architecture

Tools: JIRA, Confluence, Figma, Miro, Notion, Tableau, Power BI, Amplitude, Postman, GitHub, Linear

PROJECTS

AI Incubators | AI Agent Platform for University Advising & Tutoring

- Developed product vision and go-to-market strategy for **2 AI agent systems** (RAG-based, LLM-powered) by benchmarking **10+ tools and analyzing 40+ university** implementations
- Presented **10+ product demos to C-suite leadership** and synthesized feedback into prioritized sprint requirements
- Achieved **86% positive feedback** and **18% faster homework** completion by launching **MVP with 50+ users**

Coursera - SmartAssist | People's Choice Award Winner

- **Authored the PRD** and **scoped the MVP using RICE prioritization** for a neurodivergent-friendly learning product
- Projected **30% adoption growth and 7-10% revenue lift** through a data-backed business case evaluated by industry leaders
